FIRE HYDRANT FLOW TESTING

The Camden-Wyoming Sewer & Water Authority is advising residents regarding Fire Hydrant Flow Testing that will be taking place on Friday, January 11 beginning at 8:30 am. This flow testing is required by the State Fire Marshall for CR Plaza/Redner's location. Testing will be performed between the hours of 8:30am through 4:00 pm on Friday. This may result in temporary and harmless discoloration of the water and/or fluctuations in water pressure. Should this occur, running a cold water tap for a short period will help to restore water color to normal. To avoid possible discoloration of light-colored clothing, residents may wish to not launder during the time indicated above and for at the next 24 hrs after testing is complete. We appreciate your understanding and apologize for any inconveniences caused during this time. Contact the office at 302/697-6372 during regular business hours of 7:30 am – 4:00 pm; Monday through Friday, should you have any further questions.

FROM THE DESK OF CHIEF WILLEY

HAPPY NEW YEAR! I would like to take this opportunity to thank everyone for their support over the last year. The Wyoming Police Department has made some changes and we will continue to make changes in order to meet the needs of the residents of Wyoming. It has been fairly quiet this month for the police department.

Our prayers go out to the all the family members of the victims from Newtown, CT. The Wyoming Police Department has and is in the process of working with W.B. Simpson to insure and improve the safety for the children in the school.

I wanted to make everyone aware that the Wyoming Police Department will be having another open house in the near future.

I would like to leave you with this quote from C.S. Lewis "It must be hard for an egg to turn into a bird; it would be a jolly sight harder for it to learn to fly while remaining an egg at present. And you cannot go on indefinitely being just an ordinary egg. We must be hatched or go bad."

Thank You!
